Statements of Policy regarding Non-Discrimination, Complaints, Retaliation, Confidentiality and EEO

Statement of Policy:
Fort Valley State University is committed to maintaining a fair and respectful environment for work, study and living. Therefore, in accordance with federal law, state law, University System of Georgia policies and Fort Valley State University (“the University”) policies, the University prohibits and will not tolerate discrimination against or harassment of any individual or group based upon race, color, religion, ethnic or national origin, gender, genetic information, age disability, sexual orientation, gender identity, gender expression, veteran’s status or any factor that is a prohibited consideration under applicable law.

**Applicability:**
Every member of the University Community is expected to adhere to this Policy as a matter of mutual respect and fundamental fairness. Every member of the University Community shall adhere to this Policy as a condition of remaining a part of and enjoying the privileges of being a member of the University Community. Members of the University Community include but are not limited to:
1. University, faculty, staff, administrators, employees and independent contractors;
2. University students;
3. Volunteers and participants in any University program or activity;
4. Guests and visitors to campus and to any property owned or leased by the University or owned or leased by any University affiliated organization or group; and
5. Such persons identified herein whether on or off University owned or leased property when such person is acting as a member of the University Community.

**Complaints Against Students:**
Students are bound by the provisions of this policy. However, complaints against students acting in their capacity as a student shall be subject to adjudication pursuant to the University’s Sexual Misconduct provisions of the Student Code of Conduct, Article 1, Section 1. The University’s Policy on Harassment is contained in Section XV of the Code of Conduct. The Policy on Harassment defines harassment, explains how to report allegations of harassment and identifies the procedures that will be used to address allegations of sexual harassment so as to ensure compliance with federal laws, specifically, Title IX of the Education Amendments of 1972. A
link to the University’s Code of Conduct and Compliance Office can be found on the University’s home page at www.fvsu.edu.

Policy Details:

Equal Opportunity Policy:

Fort Valley State University is committed to providing equal opportunities to all individuals regardless of race, color, religion, ethnic or national origin, gender, genetic information, age, disability, sexual orientation, gender identity, gender expression and veteran’s status. The University does not discriminate in admissions, educational programs, or employment on the basis of any factor stated above or prohibited under applicable law. Students, faculty and staff are assured of participation in University programs and in the use of facilities without such discrimination. The University complies with all applicable equal employment opportunity laws and regulations and follows the principles outlined above in all aspects of employment including recruitment, hiring, promotions, transfers, discipline, terminations, wage and salary administration, benefits and training.

Harassment:

Fort Valley State University prohibits unlawful harassment. Discriminatory harassment includes, but is not limited to, unlawfully threatening, intimidating, verbally abusing, impeding, telephoning, communicating electronically, following or persistently bothering or annoying. The University strictly prohibits discriminatory harassment.

Discriminatory harassment is unwelcome verbal or physical conduct based on race, color, religion, ethnic or national origin, gender, genetic information, age, disability, sexual orientation, gender identity, gender expression and veteran’s status when such conduct:
a). has the purpose or effect of unreasonably interfering with an individual’s work or educational performance;

b). creates or has the intention of creating an intimidating, hostile or offensive working, learning or living environment;

c). unreasonably interferes with or limits an individual’s ability to participate in or benefit from an educational program or activity.

**Sexual harassment** is unwelcome conduct of a sexual nature. Conduct is unwelcome if the person did not request or invite it and “regarded the conduct as undesirable and offensive.” The Office of Civil Rights, which enforces Title IX, makes a “strong presumption that sexual conduct between a school employee and a student is not consensual. Sexual harassment includes sexual advances, physical or implied, or direct propositions of a sexual nature inappropriate/unnecessary touching or rubbing against another, sexually suggestive or degrading jokes or comments, sexual nature about one's clothing and/or body, preferential treatment in exchange for sexual activity, and the inappropriate display of sexually explicit pictures, text, printed materials, or objects that do not serve an academic purpose.

**Sexual harassment is also sexual violence which includes dating violence, domestic violence, violence against women and sexual misconduct as defined in the Fort Valley State University Code of Conduct, the laws of the State of Georgia and federal law.**

Sexual harassment can also include unwelcome sexual advances, requests for sexual favors, and other behaviors of a sexual nature when:

a) submission to such conduct is made explicitly or implicitly a term or condition of an individual's employment or academic standing; or

b) submission to or rejection of such conduct by an individual is used as a basis for employment or academic decisions affecting an individual; or
c) such conduct unreasonably interferes with an individual's work or academic performance or creates an intimidating, hostile or offensive working or academic environment.

**Retaliation is Prohibited:**

Fort Valley State University encourages anyone who has knowledge of discrimination on campus or by University Community Members off-campus to report alleged violation of this policy to the Office for Compliance at 478-825-6333 or by use of the Maxient link on the Fort Valley State University Judicial Affairs Department site at [www.fvsu.edu](http://www.fvsu.edu).

Fort Valley State University prohibits retaliation against an individual for filing a complaint of harassment or for cooperating in an investigation of a complaint of harassment. Anyone who, in good faith reports what is believed to be discrimination or harassment, who participates or cooperates in, or is otherwise associated with any investigation, shall not be subjected to retaliation.

**Confidentiality:**

Fort Valley State University strongly supports an individual’s interest in confidentiality, especially in matters involving sexual misconduct/violence. If an alleged victim request that their identity is withheld or that an alleged incident not be investigated, the University will seek to honor such request. However the University will explain that honoring such request may limit the University’s ability to fully respond to the alleged incident and to discipline the alleged violator. If the alleged victim persists with the request for confidentiality, the University will consider whether the request can be honored while still providing a safe and nondiscriminatory university environment. The University will inform the alleged victim of the University’s decision regarding their request for confidentiality.

The University will comply with all state and federal laws regarding confidentiality regardless of whether an alleged victim requests confidentiality.
In support of an individual’s request for confidentiality and the University’s interest in learning about incidents of discrimination and harassment, the University designates two levels of confidential resources:

1. **Privileged Resource Employee:** These employees will not report disclosures of harassment or discrimination to the compliance officers. However, they must comply with the anonymous reporting for Clery Act purposes and mandatory reporting under Georgia State Law. These employees are:

   a. University Counseling Services Center Staff

1. **Support Resource Employee:** These employees may talk to an alleged victim in confidence and generally report to the University only that the incident occurred (date, time, location and perpetrator if known) without revealing information that will personally identify the alleged victim. Disclosure to these employees will not automatically trigger an investigation and they will not refer the incident for investigation unless the alleged victim affirmatively consents to the referral.

   a. University Counseling Services Center Staff
   b. Student Support Services employees

**Reporting:** Any administrator, supervisor, faculty member or other person in a position of authority that is not a confidential resource as defined above who has knowledge of or receives a complaint of discrimination or harassment must fully report the information or complaint to the Office of Compliance. This obligation to report also applies to student employees who serve in a supervisory role including teaching assistants, resident assistants and orientation leaders. No employee should assume that an official of the University knows about a particular discriminatory or harassment situation.
Amnesty for Students: The University encourages students to report incidents of discrimination and harassment even when in doing so, the student must admit to consuming alcohol or drugs. Therefore, information reported by a student during an investigation that reveals the student’s use of alcohol or drugs will not be used against the student in any University disciplinary proceeding and will not be reported to law enforcement for prosecution.

Office of Compliance–Mission:
The mission of the Fort Valley State University Office of Compliance is to ensure adherence to policies and procedures and protect all University Community Members from discrimination or harassment and to promptly and fairly address allegations of discrimination, harassment and retaliation. The Chief Compliance Officer may be reached at 478-825-6333.

Good faith reports of harassment or discrimination may be report to the representative listed below:

* Chief Compliance Officer (Title IX Coordinator & EEO Officer): 478-825-6333
* Director of Human Resources: 478-825-6301
* Chief of Campus Police and Safety at 478-825-6280
* Dean of Students: 478-825-6292
* Student Athletes: Associate Director of Athletics: 478-825-6179

If a FVSU student has been subjected to harassment in any form, this complaint should be filed with the FVSU Campus Police and Safety at 478-825-6211.

False Accusation:

Anyone who knowingly makes a false or bad faith accusation of discrimination or Harassment shall be subject to disciplinary action pursuant to the Student Code of Conduct or other appropriate University policy. However, failure to find sufficient proof to show that an incident of discrimination or harassment occurred does not constitute proof that the accusation was false or made in bad faith.
Consensual Relationships in Regard to Sexual Harassment:

When one party has a professional relationship toward the other, or stands in a position of authority over the other, even an apparently consensual sexual relationship may lead to sexual harassment or other breaches of professional obligations. Fort Valley State University prohibits all faculty and staff, including graduate assistants, from pursuing or engaging in dating or sexual relationships with any student whom they currently supervise, teach or evaluate in any way.

Employees are prohibited from having a dating or sexual relationship when one employee supervises, evaluates or in any other way directly affects the terms and conditions of the other employee’s employment. This provision applies to both student and nonstudent employees. Any employee who supervises, evaluates or in any other way directly affects the terms and conditions of another employee must immediately disclose the existence of a dating or sexual relationship to his/her supervisor.

Individuals who violate this provision are subject to disciplinary action up to and including termination.
ANNUAL SECURITY REPORT

REPORTING CRIMES AND OTHER EMERGENCIES

The University has a number of ways for campus community members and visitors to report crimes, serious incidents, and other emergencies to appropriate University officials. Regardless of how and where you decide to report these incidents, it is critical for the safety of the entire University community that you immediately report all incidents to Fort Valley State University Campus Police (478-825-6211) to ensure an effective investigation and appropriate follow-up actions, including issuing a Crime Alert or emergency notification.

Voluntary, Confidential Reporting

If crimes are never reported, little can be done to help other members of the community from also being victims. We encourage University community members to report crimes promptly and to participate in and support crime prevention efforts. The University community will be much safer when all community members participate in safety and security initiatives.

If you are the victim of a crime or want to report a crime you are aware of, but do not want to pursue action within the University or criminal justice system, we ask that you consider filing a voluntary, confidential report. Depending upon the circumstances of the crime you are reporting, you may be able to file a report while maintaining your confidentiality. The purpose of a confidential report is to comply with your wish to keep your personally identifying information confidential, while taking steps to ensure your safety and the safety of others. The confidential reports allow the University to compile accurate records on the number and types of incidents occurring on campus. Reports filed in this manner are counted and disclosed in the Annual Security and Fire Safety Report. In limited circumstances, the Department may not be able to assure confidentiality and will inform you in those cases.

Anyone may call the University Campus Police at 478-825-6211 to report concerning information. Callers may remain anonymous.
Reporting to University Campus Police

We encourage all members of the University community to report all crimes and other emergencies to University Campus Police in a timely manner. University Campus Police have a dispatch center that is available by phone at 478-825-6211 or in person twenty-four hours a day at the lower level of the Bywaters Building (Located next to Hunt Library). Though there are many resources available, Fort Valley State University Campus Police should be notified of any crime, whether or not an investigation continues, to assure the University can assess any and all security concerns and inform the community if there is a significant threat to the University community.

Emergency Phones

The University has installed more than 22 emergency call posts throughout the University campus. Emergency call posts are located in public areas of buildings including parking lots, elevators, residence hall complexes, administration buildings, and also numerous outdoor locations. Emergency call posts provide direct voice communications to the University Campus Police Dispatch Center.

Anonymous Reporting

If you are interested in reporting a crime anonymously, you can utilize the University Police’s Anonymous phone tip line at 478 825-6211. By policy, we do not attempt to trace the origin of the person who makes the call, unless such is deemed necessary for public safety. Persons may also report crimes through the Crime Stoppers toll free phone line at 1-800-222-8477 or via the web site. You can also submit tips through local Crime Stoppers at 478 742-2330.

Reporting to Other Campus Security Authorities

While the University prefers that community members promptly report all crimes and other emergencies directly to the University Campus Police at 478-825-6211 or 911, we also recognize that some may prefer to report to other individuals or University offices. The Clery Act recognizes certain University officials and offices as “Campus Security Authorities (CSA).” The Act defines these individuals as “official of an institution who has significant responsibility for student and campus activities, including, but not limited to, student housing, student discipline
and campus judicial proceedings. An official is defined as any person who has the authority and the duty to take action or respond to particular issues on behalf of the institution.”

While the University has identified several hundred CSAs, we officially designate the following offices as places where campus community members should report crimes:

Pastoral and Professional Counselors

According to the Clery Act, pastoral and professional counselors who are appropriately credentialed and hired by Fort Valley State University to serve in a counseling role are not considered Campus Security Authorities when they are acting in the counseling role. As a matter of policy, the University encourages pastoral and professional counselors to notify those whom they are counseling of the voluntary, confidential reporting options available to them.

It’s Up to Each of Us

The University takes great pride in the community and offers students, faculty and staff many advantages. This community is a great place to live, learn, work and study, however, this does not mean that the campus community is immune from all of the other unfortunate circumstances that arise in other communities. With that in mind, Fort Valley State University has taken progressive measures to create and maintain a reasonably safety environment on campus.

Though the University is progressive with its policies, programs, and education, it is up to each one of us to live with a sense of awareness and use reasonable judgment when living, working or visiting on campus.

PREPARATION OF THE ANNUAL SECURITY REPORT AND DISCLOSURE OF CRIME STATISTICS

The Fort Valley State University Campus Police in collaboration with other University officials, prepare this report to comply with the Jeanne Clery Disclosure of Campus Security and Crime Statistics Act using information maintained by the University Campus Police, information provided by other University offices such as Student Success, Residence Life, and other Campus
Security Authorities and information provided by local law enforcement agencies surrounding the main campus. Each of these offices provide updated policy information and crime data.

This report provides statistics for the previous three years concerning reported crimes that occurred on campus, in certain off-campus buildings or property owned, leased or controlled by Fort Valley State University. This report also includes institutional policies concerning campus security, such as policies regarding sexual assault, alcohol and other drugs.

The University distributes a notice of the availability of this Annual Security and Fire Safety Report by October 1 of each year to every member of the University community. Anyone, including prospective students and employees, may obtain a paper copy of this report by contacting the University Campus Police at 478-825-6211 or by visiting http://www2.fvsu.edu

Working Relationship with Local, State, and Federal Law Enforcement Agencies

The University Campus Police maintains a cooperative relationship with the Georgia Bureau of Investigation, Peach County Sheriff’s Office, Fort Valley City Police, and surrounding law enforcement agencies. This includes special events coordination, and investigation of serious incidents.

Fort Valley State University Campus Police participates in an Inter-municipal Mutual Aid Agreement that authorizes police officers and supervisors of the participating agencies to request mutual aid for incidents based upon a reasonable belief that such aid will enhance the public’s and/or officer safety and efficiency. The agencies participating in the agreement include Peach County Sheriff’s Office, Fort Valley Police Department, Warner Robins Police Department and
Houston County Sheriff’s Office. The agreement also allows for joint training and cooperation on other matters, such as pre-planned large-scale special events, amongst the participating agencies.

**Crimes Involving Student Organizations at Off-Campus Locations**

Fort Valley State University relies on its close working relationships with local law enforcement agencies to receive information about incidents involving Fort Valley State University students and recognized student organizations, on and off campus. In coordination with local law enforcement agencies, the University Campus Police will actively investigate certain crimes occurring on or near campus. If the University Campus Police learns of criminal activity involving students or student organizations, it will coordinate with the appropriate external law enforcement agency to forward information about the situation to the Office of Student Success, as appropriate.

The University requires all recognized student organizations to abide by federal, state, and local laws, and University regulations. The University may become involved in the off-campus conduct of recognized student organizations when such conduct is determined to affect a Substantial University Interest.

**TIMELY WARNING NOTICES – CRIME ALERTS**

Fort Valley State University will issue Timely Warning Notices in the event that it receives notice of an alleged Clery Crime (defined below) occurring on campus, on public property within or immediately adjacent to the campus, or in or on non-campus buildings or property controlled by Fort Valley State University, where the Fort Valley State University determines, in its judgment, that the allegations present a serious or continuing threat to the Fort Valley State University community.

For purposes of this policy, “timely” means as soon as reasonably practicable, generally not more than 48 hours after an incident has been reported to the Department of Campus Police and Safety. Authorities identified by Fort Valley State University, or local police agencies that have concurrent jurisdiction have reported the information to the Fort Valley State University. The
Chief of Police/Director of Campus Police and Safety, or, in his absence or unavailability, his designee, is responsible for determining whether to issue a Timely Warning Notice. If the Director or designee is not available, the determination will be made by a member of the Fort Valley State University’s emergency response and planning committee.

Whether to issue a Timely Warning Notice is determined on a case-by-case basis for Clery Act crimes: arson, homicide, burglary, robbery, forcible and non-forcible sex offenses, aggravated assault, motor vehicle theft, domestic violence, dating violence, stalking and Hate Crimes, as defined by the Clery Act.1 Notices also may be distributed for other crimes as determined necessary by the Director of Campus Police and Safety or the designee in his/her absence.

In determining whether to issue a Timely Warning, Fort Valley State University will consider any factors reflecting on whether the alleged crime represents a serious or continuing threat to the Fort Valley State University community, including, but not limited to, (a) the nature of the incident; (b) when and where the incident occurred; (c) when it was reported; (d) the continuing danger to the campus community; and (f) the amount of information known by the Department of Campus Police and Safety. If there is insufficient information available to determine whether the incident represents a continuing threat to the Fort Valley State University community, the University will issue a Timely Warning unless, based on the information available, it appears unlikely that there is an ongoing threat to the Community, and will note in the content of the Timely Warning that, based on the information available, the University does not have full information to evaluate the nature of the ongoing threat.

A hate crime is a criminal offense of murder and non-negligent murder, forcible sex offenses, non-forcible sex offenses, robbery, aggravated assault, burglary, motor vehicle theft, arson, larceny-theft, simple assault, intimidation, destruction/damage/vandalism of property, domestic violence, dating violence, or stalking incidents, where the criminal offense was committed against a person or property which is motivated, in whole or in part, by the offender’s bias. Bias is a preformed negative opinion or attitude toward a group of persons based on their race, gender, gender identity, religion, disability, sexual orientation or ethnicity/national origin.

The Director of Campus Police and Safety will make efforts to consult with the Director of Marketing and Communications or a designee, if s/he is available, to develop the content of the
Timely Warning Notice. The Fort Valley State University’s Title IX Coordinator may also be consulted in appropriate situations.

The Timely Warning Notice will typically include, to the extent known, the date, time and nature of the offense, a brief overview of its particular circumstances, a physical description of the actor(s), law enforcement’s immediate actions, a request and method for witnesses to contact law enforcement, and where applicable and appropriate, cautionary advice that would promote safety. In developing the content of the Timely Warning Notice, the University will take all reasonable efforts not to compromise ongoing law enforcement efforts.

Fort Valley State University distributes Timely Warning Notices in various ways. Once the Fort Valley State University determines that an alert will be issued, the Department of Public Safety e-mails the announcement and posts it on its website (www2.fvsu.edu), and posts alerts on bulletin boards throughout campus when feasible. The Fort Valley State University will also send email, text and voicemail messages disseminating the notice to those who register their cell phone numbers in Banner or ADP.

Anyone with information about a serious crime(s) or incident(s) should report the circumstances to the Department of Campus Police and Safety by phone at (478) 825-6211 or in person at the Bywaters Building. If a report is made to other Fort Valley State University administrators, those administrators will immediately notify the Department of Campus Police and Safety.

EMERGENCY RESPONSE AND EVACUATION PROCEDURES

Emergency Management at Fort Valley State University

The Office of Emergency Management is responsible for the Comprehensive Emergency Operations Plan (CEOP). This plan is designed to be an all-hazards disaster response and emergency management plan that complies with FEMA guidelines for Higher Education that includes planning, mitigation, response, and recovery actions.

Our priorities are:
- Life safety, infrastructure integrity, and environmental protection during an emergency
- Coordination with university departments to write, maintain, test, and exercise the CEOP
- Cooperation, Integration, and Mutual Aid with local, state and federal planning, response, and public safety agencies and their CEOPs.

A summary of the University’s emergency response procedures is located at [www2.fvsu.edu](http://www2.fvsu.edu).

Included at this web page is detailed information regarding the University’s emergency notification policy, including how to enroll in the emergency notification system to ensure you receive emergency notices on University and cellular telephones.

**Drills, Exercises and Training**

Annually, the University conducts an emergency management exercise whether full-scale mock drills or table top exercises to test emergency procedures. The scenarios for these exercises change from year-to-year, and include several departments from across the campus.

To ensure the University’s emergency management plans remain current and actionable, the University will conduct an emergency management exercise, at a minimum once yearly. These exercises may include tabletop drills, emergency operations center exercises, or full-scale emergency response exercises. The University conducts after-action reviews of all emergency management exercises.

In conjunction with at least one emergency management exercise each year, the University will notify the community of the exercise and remind the community of the information included in the University’s publicly available information regarding emergency response procedures ([www2.fvsu.edu](http://www2.fvsu.edu)).

**Emergency Notification**

Fort Valley State University is committed to ensuring the campus community receives timely, accurate, and useful information in the event of a significant emergency or dangerous situation on campus or in the local area that poses an immediate threat to the health and safety of campus community members. Fort Valley State University uses the emergency notification system known as Blackboard Connect or ConnectEd. Blackboard Connect/ConnectEd is a community outreach notification tool designed to aid in the distribution of important information. A message
can be sent on or off campus by Marketing and Communications, Campus Police, Plant Operations, Student Success to communicate with students, faculty, staff, community and parents about emergency situations, school events and important issues impacting FVSU. Messages are sent via voice and/or text messages to homes, work or cell phones. Essentially, we can make one phone call that reaches faculty, staff, students, parents and the community within minutes or a district message can be sent to reach all the families within minutes.

Blackboard Connect is an emergency notification service available to students, staff, and anyone in the University community who wants to subscribe. Blackboard Connect can be used to send emergency messages within minutes of the occurrence of an incident. Alerts sent by Blackboard Connect are simulcast to the University community via our news wire at www2.fvsu.edu, Fort Valley State University’s Facebook page, Twitter, or at the subscriber’s choice, their e-mail account. All of the campuses have full access to Blackboard Connect for posting local emergency alerts.

Fort Valley State University performs a University-wide annual test of the system. The following procedures outline the process the University uses when issuing emergency notifications.

**Procedures Used to Notify the Campus Community**

In the event of a situation that poses an immediate threat to members of the campus community, the University has various systems in place for communicating information quickly. Some or all of these methods of communication may be activated in the event of emergency notification to all or a segment of campus community. These methods of communication include the mass notification system Blackboard Connect, the University’s email system, and verbal announcement within a building and public address system on police cars. The University will post updates during a critical incident on the homepage. If the situation warrants, the University will establish a telephone call-in center to communicate with the University community during an emergency situation.

*Confirming the Existence of a Significant Emergency or Dangerous Situation and Initiating the Emergency Notification System*

The Department of Campus Police and Safety and/or other campus first responders may become aware of a critical incident or other emergency situations that potentially affect the health and/or
safety of the campus community. Generally, campus first responders become aware of these situations when they are reported to the Police Dispatch Recorder or upon discovery during patrol or other assignments.

Once first responders confirm that there is, in fact, an emergency or dangerous situation that poses an immediate threat to the health or safety of some or all members of the campus community, first responders will notify supervisors in the Department of Campus Police and Safety or other authorized University office to issue an emergency notification.

The University’s authorized representatives will immediately initiate all or some portions of the University’s emergency notification system. If, in the professional judgment of first responders, issuing a notification potentially compromises efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency, the University may elect to delay issuing an emergency notification. As soon as the condition that may compromise efforts is no longer present, the University will issue the emergency notification to the campus community.

Determining the Appropriate Segment or Segments of the Campus Community to Receive an Emergency Notification

University and/or local first responders on the scene of a critical incident or dangerous situation will assist those preparing the emergency notification with determining what segment or segments of the University community should receive the notification. Generally, campus community members in the immediate area of the dangerous situation (i.e. the building, adjacent buildings, or surrounding area) will receive the emergency notification first. The University may issue subsequent notifications to a wider group of community members. In addition to the emergency notification that may be issued via the University's mass notification system, the University will also post applicable messages about the dangerous condition on the University homepage to ensure the rest of the campus is aware of the situation and the steps they should take to maintain personal and campus safety. If the emergency affects a significant portion of the entire campus, University officials will distribute the notification to the entire campus community.

Determining the Contents of the Emergency Notification

The office responsible for issuing the emergency notification (the Campus Police Dispatch Recorder officers) will, in consultation with University and local first responders, determine the
contents of the notification. The University has developed a wide range of template messages addressing several different emergency situations. The individual authorizing the alert will select the template message most appropriate to the ongoing situation and modify it to address the specifics of the present incident. In those cases where there are no pre-determined template messages in the system, the individual authorizing the alert will develop the most succinct message to convey the appropriate information to the community. The goal is to ensure individuals are aware of the situation and that they know the steps to take to safeguard their personal and community safety.

*Enrolling in the University’s Emergency Notification System*

We encourage members of the campus community to enroll in the Blackboard Connect system by visiting [http://www2.fvsu.edu](http://www2.fvsu.edu), click on quick links for Banner web or ADP. We encourage University community members to regularly update their information at the same site.

Local community/public safety officers receive messages when messages are sent to them – messages are sent to them if the message originator requests that they receive that message – messages are sent to them if their contact information (name, phone numbers and email addresses) have been added to the Blackboard Connect system – contact information is added to the Bb Connect system using an “import” procedure – contact information is obtained, for the import procedure, from the office/area/persons wishing to have their information added into the Bb Connect system – their contact information is formatted using template provided and upon receipt of the file with the contact information, it is uploaded into the system – their contact information stays in the Bb Connect system until a request to remove or change it is submitted – if no removal action is taken, their contact information is available when/if a message related specifically to them is sent out.

**SECURITY OF and ACCESS TO UNIVERSITY FACILITIES**

At Fort Valley State University campus, administrative buildings are open from 7:00 a.m. until 5:00 p.m., Monday through Friday, and academic buildings generally are open from 7:00 a.m. until 7:00 p.m. Academic buildings are scheduled to be open on weekends only as needed.
Access to individual classrooms and laboratories is limited to those enrolled in the courses meeting there. Likewise, access to most programs is limited to those enrolled in the program or otherwise authorized access.

Many cultural and athletic events held in the University facilities are open to the public. Other facilities such as the bookstore, library, and performance center are likewise open to the public. Only those who have demonstrated a need are issued keys to a building.

**Special Considerations for Residence Hall Access**

At the University campus, all residence halls operate under a computerized Access Control and Security Monitoring System. Identification cards are coded so that only students who are residents in a particular hall are authorized electronic access entry to that hall; the system denies entry to all unauthorized persons. When any exterior door is left ajar, an audible alarm is activated. Residents Assistants are responsible for checking and securing doors along with Police and Security Officers when on patrol. When a door is malfunctioning, residence hall personnel should be summoned for immediate repair. Remember to lock your doors and windows. All residence hall and apartment exterior doors are equipped with locks and mechanisms to ensure a quick emergency exit.

Only residents and their invited guests are permitted in the living areas of the residence halls. It is the resident’s responsibility to ensure that his/her guest are aware of the University and residence hall policies. Guests are not provided with room keys or door access cards. Guests of the opposite sex must be escorted by a resident of the building at all times. All exterior doors are locked 24 hours a day. It is the responsibility of residents and staff members to challenge or report individuals who cannot be identified as residents or the guests of residents. When University Campus Police receive a report of an unescorted person in a residence hall, a police officer is dispatched to assist the Office of Residential Life in identifying that person. During low-occupancy periods such as holidays and scheduled breaks, students are consolidated into designated buildings and gain access via the University’s electronic access control system. During the summer when groups who are not regularly associated with Fort Valley State University are using the University residence halls, exterior doors are locked 24 hours a day. Depending on the number of guests, each individual may be issued an identification card that
allows him or her to gain access to their assigned building via the electronic access control system. In the event of a large number of guests, the Lead Counselor/Chaperone may be issued five (5) to ten (10) identification cards that will be assigned at his or her call. The individuals with the identification cards will be responsible for ensuring the other guests have access into the residence halls. Residence Halls are staffed 24 hours per day. University Police personnel also conduct regular checks of residence hall areas.

Security Considerations for the Maintenance of Campus Facilities

Fort Valley State University is committed to campus safety and security. At the University locks, landscaping and outdoor lighting are designed for safety and security. Sidewalks are designed to provide well-traveled, lighted routes from parking areas to buildings and from building to building. Sidewalks and building entrances are illuminated to provide well-traveled, lighted routes from parking areas to buildings and from building to building. Light fixtures that are out are reported to Plant Operations for replacement or repair.

We encourage community members to promptly report any security concern, including concerns about locking mechanism, lighting, or landscaping to the Office of Campus Police and Safety and/or the Office of Plant Operations.

CAMPUS SECURITY POLICIES, CRIME PREVENTION & SAFETY AWARENESS PROGRAMS

In addition to the many programs offered by the University Campus Police and other University offices, the University has established a number of policies and procedures related to ensuring a reasonably safe campus community. These policies include:

Behavioral Intervention Team

In order to extend our efforts on emergency preparedness and prevention, Fort Valley State University has established a Behavioral Intervention Team. The objective of the Behavioral Intervention Team (BIT) is to put in place a structured process for evaluating potentially threatening situations that occur at the University. The multidisciplinary team is comprised of members from around the University community. If you would like further information about
the BTT please contact the Dean of Students located in the Student Amenities Building (Office of Student Life).

**Weapons Policy**

The possession, carrying and use of weapons, ammunition, or explosives is prohibited on University owned or controlled property.

The only exception to this policy is for authorized law enforcement officers or others, specifically authorized by the University. At some campuses, University Campus Police provides storage facilities for the personal weapons of members of the University community. Failure to comply with the University weapons policy will result in disciplinary action and/or criminal charges being launched against violators.

**Crime Prevention and Safety Awareness Programs**

In an effort to promote safety awareness, the University Campus Police maintains a strong working relationship with the community. This relationship includes offering a variety of safety and security programs and services and crime prevention programming. If you or your organization would like to request a specific program, please contact the Office of Campus Police and Safety at (478) 825-6211 or the Office of Student Life at (478) 825-6292. Judicial Affairs (Student Conduct)

The Office of Judicial Affairs

The mission of the Office of Judicial Affairs is to promote a safe, orderly, and civil University community and to encourage and inspire students to become good citizens by engaging in personal responsibility, ethical decision making, and demonstrating respect for the rights and safety of others.

The Student Code of Conduct

The Office of Judicial Affairs is responsible for administering the Code of Conduct for Students, which is articulates the behavioral standards and the equitable procedures employed by the University to respond to allegations of student misconduct.

The Code of Conduct for Students is administered at all University campuses on University property and may also address off campus student misconduct when a student’s behavior affects a Substantial University Interest.

Students who are found responsible for violations may be subject to sanctions ranging from Monetary Fines, Community Service, Disciplinary Warning, Disciplinary Probation, up to Suspension or Expulsion from the University. Students residing in University housing may also lose the privilege of living on campus for violating University rules and regulations or conditions of the housing contract.
In most cases the Office of Judicial Affairs will also assign developmental and educational interventions designed to promote greater awareness and improved decision-making for students and to further deter future misconduct.

In instances where there is reasonable cause to believe a student is an immediate threat to the safety of himself/herself or other persons or property or is an immediate threat to disrupt essential campus operations, a student may receive an Interim Suspension and/or other actions from the Dean of Students or the Vice President for Student Success and Enrollment Management. This is designed to protect the health and safety of the community and members therein.

Any individual or entity may submit reports alleging student misconduct to the Office of Judicial Affairs or designee at the campus where the incident occurred.

The Office of Judicial Affairs also provides outreach programming designed to inform and educate students and to promote Fort Valley State University principles. Please visit the Student Conduct homepage at http://www2.fvsu.edu/student-code-of-conduct/ where you may find the Student Code of Conduct. Housed within that document is Parental Notification Policy, Student Records Policy and links to all policy and procedural guidelines related to the Student Conduct process.

Additional Information Regarding the Student Code of Conduct

Fort Valley State University is obligated to provide all students with the University regulations, policies, and procedures governing student conduct. FORT VALLEY STATE UNIVERSITY’S RESPONSE TO SEXUAL AND GENDER VIOLENCE

Please see the attached Sexual and Gender Violence Policy Statement, which complies with the requirements of the Campus SaVE Act. (covered on pages 6-13)

Sexual Assault Policy

http://www2.fvsu.edu/home/administration/office-of-business-and-finance/campus-safety/

The university is committed to combating crimes of sexual assault both on and off campus. Our concentration in this matter is focused on prevention targeted at every member of the Fort Valley State University community. There are programs established which include seminars, workshops, group and individualized counseling services. Additionally, there is a wide distribution of materials which focus on information about rape, acquaintance rape, incest and sexual harassment.

The Academic Success Center, the Office of Student Success and the Department of Campus Police and Safety are all charged with providing services related to sexual assault prevention and reporting. Information can be obtained by contacting any of the three offices. Remember: if it feels wrong, looks wrong or seems to be wrong, then it probably is wrong.

In the event a member of the university community is the victim of a sexual assault on or off campus, it is the policy of the university to:

- encourage prompt reporting to both campus authorities and local police,
- refer victims for appropriate medical treatment,
- provide initial post-incident counseling services and,
- make referrals to community-based victim witness assistance services.

In the event of alleged on-campus sexual assault either forcible or non-forcible, all members of the university community are directed to immediately notify campus police and file an official report.

More information regarding Sexual Assault can be obtained in the CRIME AWARENESS AND CAMPUS SECURITY ACT INFORMATION BROCHURE, which is located at the Department of Campus Police and Safety in Bywaters Building.
Personal Safety

Theft, disorderly conduct, and alcohol related offenses are very common on university campuses. However, they don’t stand-alone. Despite law enforcement’s efforts, serious crimes do occur on campuses. It is important to report any suspicious incidents to police and always remain alert and vigilant.

One of the more serious crimes that too often is unreported is Sexual Assault. It is important to know what these crimes are, because in many cases, victims do not realize that have been victimized. Additionally, crimes of this nature are very difficult for victims to report for a number of very complex reasons. We provide the following information to assist those who may have been victims of sexual assault or who have a friend who has been sexually assaulted.

There are many guidelines to help you be more alert and aware of the situation to prevent such serious crimes. Such as:

**Know your surroundings**
- Be alert
- Call for help
- Report any suspicious people and/or activity, immediately

**Defining Rape/Sodomy and Sexual Assault**

In Georgia, RAPE/SODOMY is defined the oral, anal, or vaginal penetration by an inanimate object, penis, or other bodily part without consent. The act of penetration will be considered forced and without consent if the victim was unable to give consent due to a condition of which the offending student was or should have been aware (e.g., the victim was intoxicated due to the excessive use of alcohol or other drugs, coerced, or threatened verbally, including being threatened with future physical harm).

At FVSU, SEXUAL ASSAULT is defined as the unwanted touching of the intimate body parts of another (e.g., breasts, buttocks, groin, genitals, or the clothing covering any such body part). These acts will be considered unwanted and without consent if the victim was unable to give consent due to a condition of which the offending student was or should have been aware (e.g., the victim is intoxicated due to the excessive use of alcohol or other drugs, coerced, or threatened verbally, including being threatened with future physical harm).
While these definitions are clear, victims often have difficulty reporting a sexual assault for numerous reasons such as knowing the perpetrator, fear of retaliation, fear of parents knowing about the incident, fear of getting in trouble with law enforcement. Despite these concerns, it is vital to report such incidents in order to get help.

The following information provides steps to follow should a sexual assault occur:

- Get to a safe place as soon as possible!

- Try to preserve all physical evidence – The victim should not bathe, shower, brush teeth, douche, use the toilet, or change clothing until s/he has a medical exam. Contact a close friend or relative, if available, who can provide support and accompany the victim to the medical exam and/or police department. Advocates from the Women’s Resource Center can be available to the victim to provide support.

- Get medical attention as soon as possible – An exam may reveal the presence of physical injury of which the victim is unaware. Following a sexual assault, antibiotics are typically given at the time of the exam to help prevent the victim from acquiring certain sexually transmitted diseases. Emergency contraceptive pills are offered to all victims at the time of the exam (if the victim presents within 120 hours) to help prevent pregnancy from occurring as a result of the rape. If the victim reports memory loss, loss of consciousness or other circumstances suspicious for a drug-facilitated assault, a urine test may be done if the victim presents within 96 hours. Some of the commonly used “date rape” drugs, however, are only detectable in the urine for 6-8 hours after ingestion.

- Contact the police – Sexual assault is a crime, it is vital to report it. It is important to remember report a crime is not the same as prosecuting the crime. The decision to prosecute may be made at another time. Final decision to prosecute is determined by the District Attorney.

- Consider talking to a counselor – Seeing a counselor may be important in helping the victim understand his/her feelings and begin the process of recovery.

Our Commitment to Addressing Sexual Assault/Rape

The University does not tolerate sexual misconduct or abuse, such as sexual assault, rape or any other forms of nonconsensual sexual activity. Sexual misconduct in any form violates the Student Code of Conduct, University policies (http://www2.fvsu.edu/student-code-of-conduct/), and may violate Federal and State Laws. Violations of this policy are subject to disciplinary sanctions through the Office of Judicial Affairs and/or those outlined in applicable University policies. Please visit (http://www2.fvsu.edu/home/administration/office-of-business-and-finance/campus-safety/) to view procedures, policies and protocols for reporting and addressing
allegations of student sexual misconduct. The University provides the following rights to all sexual assault victims:

- Victim’s Advocacy/Assistance through the local District Attorney’s Office/Criminal Justice Coordinating Council (CJCC) which will pay for all basic sexual assault related care for students who receive care at either Medical Center of Peach County or the Medical Center of Central Georgia.

- Criminal Justice Coordinating Council is available to all victims of crimes. The CJCC will provide support and guidance to victims and enable them to receive advocacy, information, and assistance both judicially and academically.

- University Police, FVSU Title IX, and the Office of Student Health & Counseling Services Center are active participants in the local Sexual Assault Response Team (SART). This is to ensure victims are provided the appropriate care in a timely fashion and with only well trained professionals.

- On campus counseling services are available to students through Valley Behavioral Counseling Services.

- The Office of Student Success have special procedures that enables victims of violence to review whether they need to withdraw from a semester or individual courses.

**University Procedures for Responding to Reports of Sexual Assault**

If you or someone you know is the victim of a sexual assault, the victim has several rights, including:

- The right to report the incident to the University Campus Police or local authorities. The University will assist victims in notifying either the University or local police. Filing a police report does not mean the victim must pursue criminal charges. The victim maintains his or her rights throughout the process.

- In addition to the campus services listed below, there are also several community service organizations that can provide counseling, mental health, and other related services to sexual assault victims. The Office of Student Health & Counseling Services can assist with connecting victims to these services. Please note that not all services are available at all campus locations.

**Community and National Service Organizations:**

HODAC Center  2762 Watson Blvd. Warner Robins, GA 31093 (478) 953-4675

Benchmark Mobile Crisis Response Services 24 hour hotline: (800) 715-4225

National Domestic Violence Hotline: (800) 799-SAFE
If a victim of a sexual assault or relationship violence incident requests a change in her or his living arrangements or academic schedule, the Office of Student Success, and other offices at the University, will assist the individual with making these changes, as long as they are reasonably available.

**University Disciplinary Procedures in Sexual Assault Incidents**

If you have been sexually assaulted, you have options for addressing such conduct. You may wish first to discuss the problem privately with a counselor or an adviser in the HODAC Center, the Office of Student Health & Counseling Services or other confidential counselors. The University Police are always available to assist a victim with getting the support she/he requests.

The University’s student conduct process is designed to afford a complainant (the person who is bringing a charge) and a respondent (the person who is answering a charge) a fair, prompt, and appropriate resolution process. The process is designed to help persons who need support as they address these incidents.

The Office of Student Success manages the resolution proceeding in which a student is the alleged perpetrator. The full text of the protocol for how the University responds to sexual assault complaints through the campus conduct process can be found at [http://www2.fvsu.edu/student-code-of-conduct/](http://www2.fvsu.edu/student-code-of-conduct/). The Office of Human Resources is responsible for managing proceedings for those cases in which an employee is the accused.

In determining whether the alleged conduct constitutes sexual harassment or assault, the full context in which the alleged incident occurred must be considered. In any case, both the accuser and the accused are entitled to the same opportunities to have others present during any disciplinary proceeding. Both the accuser and the accused will be informed of the outcome of any proceeding.

During any sexual assault complaint proceeding, the University has a range of sanctions available. Those sanctions may range from probation to expulsion from the University, depending upon the nature and circumstances of the specific incident.
Sexual Assault Prevention Education Programs

The Office of Student Health & Counseling Services Center is primarily responsible for sexual assault education and awareness in collaboration with many offices at the University. Together, these offices offer a variety of programming focusing on sexual and gender violence. Below is a list of some of the programs available at the University.

An employee may be required to participate in a drug abuse or drug rehabilitation program. Underage Drinking

Alcohol is prohibited on the FVSU property. It is illegal for anyone under 21 years of age to attempt to purchase, purchase, consume, possess, or knowingly and intentionally transport any liquor, malt or brewed beverage. It is also illegal to lie about age to obtain alcohol and to carry a false identification card.

By law, the local police department and University Campus Police are required to notify parents or guardians of all underage-drinking violations.

Georgia Statutory Code Section;

TITLE 3 - ALCOHOLIC BEVERAGES CHAPTER 3 - REGULATION OF ALCOHOLIC BEVERAGES GENERALLY ARTICLE 2 - PROHIBITED ACTS § 3-3-23 - Furnishing to, purchase of, or possession by persons under 21 years of age of alcoholic beverages; use of false
identification; proper identification; dispensing, serving, selling, or handling by persons under 21 years of age in the course of employment; seller's actions upon receiving false identification O.C.G.A. 3-3-23 (2010)3-3-23. Furnishing to, purchase of, or possession by persons under 21 years of age of alcoholic beverages; use of false identification; proper identification; dispensing, serving, selling, or handling by persons under 21 years of age in the course of employment; seller's actions upon receiving false identification (a) Except as otherwise authorized by law: (1) No person knowingly, directly or through another person, shall furnish, cause to be furnished, or permit any person in such person's employ to furnish any alcoholic beverage to any person under 21 years of age; (2) No person under 21 years of age shall purchase, attempt to purchase, or knowingly possess any alcoholic beverage;(3) No person under 21 years of age shall misrepresent such person's age in any manner whatever for the purpose of obtaining illegally any alcoholic beverage;(4) No person knowingly or intentionally shall act as an agent to purchase or acquire any alcoholic beverage for or on behalf of a person under 21 years of age; or(5) No person under 21 years of age shall misrepresent his or her identity or use any false identification for the purpose of purchasing or obtaining any alcoholic beverage. (b) The prohibitions contained in paragraphs (1), (2), and (4) of subsection (a) of this Code section shall not apply with respect to the sale, purchase, or possession of alcoholic beverages for consumption:

Carrying False I.D.

It is illegal for anyone under 21 to possess an identification card falsely identifying that person by name, age, date of birth, or photograph as being 21 or older to attempt to obtain liquor, malt, or brewed beverage by using the identification card of another or by using an identification card that has not been lawfully issued to or in the name of the person who possesses the card.

Public Drunkenness

It is illegal to appear in any public place manifestly under the influence of alcohol to the degree that you may endanger yourself or other persons or property, or annoy others in your vicinity.

Public drunkenness is a crime when a person appears in any public place manifestly under the influence of alcohol or a controlled substance to the degree that he may endanger himself or other persons or property, or annoy persons in his vicinity.
Public drunkenness also leads to other behaviors and important health concerns. Oftentimes public drunkenness contributes to many criminal mischiefs and disorderly conducts on campus. Persons must be responsible for their own actions and know their limits and tolerance levels before consuming alcohol.

**Driving Under the Influence (DUI)**

In Georgia, the illegal level for DUI is .08% Blood Alcohol Content (BAC) and .02% BAC for individuals under the age of 21. Also, drivers with any amount of a Schedule I, II, or III controlled substance not medically prescribed (or their metabolites) may not drive, operate, or be in actual physical control of a vehicle.

**Refusing a Chemical Test**

Georgia law requires you to submit to state administered chemical tests of your blood, breath, urine or other bodily substances for the purposes of determining if you are under the influence of alcohol or drugs. Any person who drives a motor vehicle automatically gives consent to one or more chemical tests. This implied consent means that a person doesn’t have the right to an attorney before testing. If a person refuses to submit to a chemical test: 1) the test will not be done; 2) the person’s license will be suspended for one year; 3) the person will most likely be charged with DUI. Your refusal to submit to the required testing may be offered into evidence against you at trial.

**Open Container Law**

In Georgia, the State statute prohibiting open alcoholic beverage containers is OCGA 40-6-253. The law prohibits open containers of alcoholic beverages of any kind while the motor vehicle is in operation and in any area accessible to the driver and in the passenger area of the vehicle.

**Related Offenses**

**Possession of Marijuana**

A person is unlawful when he unknowingly, knowingly or intentionally possesses a small or large amount of marijuana (Hashish), a Schedule I substance, and is not authorized by law to possess such substance.
Persons engaged in such activity will most likely face criminal charges and be charged with a violation of the student code of conduct.

*Possession of Drug Paraphernalia*

A person is unlawful when he/she possesses, with the intent to use, drug paraphernalia which is used for packaging, manufacturing, injecting, ingesting, inhaling or otherwise introducing into the human body a controlled substance in violation State of Georgia Statute under Official Code of Georgia Annotated 16-13-1

*Synthetic Marijuana*

Effective March 1, 2011 the U.S. Drug Enforcement Agency classified synthetic marijuana as an illegal substance. This drug may also known as Spice, K2, Demon, Wicked, Black Magic, Voodoo Spice, and Ninja Aroma. Individuals found responsible for manufacturing, possessing, importing/exporting or distributing these substances will face criminal and civil penalties. University Students engaging in these activities will also be held responsible under the University’s illegal substances policies and the Student Code of Conduct.

*Drugs Risks and Consequences*

- Alcohol and other drug use during pregnancy increases risk of physical harms to fetus.
- Additional risks of harm may occur from toxic impurities present in street drugs.
- Additional risks of harm may occur from the use of prescription drugs in ways other than prescribed.
- Drugs taken by injection can increase the risk of infection (e.g. HIV, hepatitis, etc.) through needle contamination.

**Office of Student Health & Counseling Services**

**DRUG/ALCOHOL ABUSE PREVENTION and Other Student Programs**

*Alcohol Literacy Challenge (ALC)* - is a brief classroom-based program designed to alter alcohol expectancies and reduce the quantity and frequency of alcohol use among participants. Alcohol expectancies are an individual's beliefs about the anticipated effects of alcohol use,
including those that are positive (e.g., increased sociability, reduced tension) and negative (e.g., impairments to mental and behavioral functioning, increased aggressiveness or risk taking).

Some of the most desired effects—the arousing, positive, and prosocial effects—are placebo effects rather than pharmacological ones. ALC aims to correct erroneous beliefs about the effects of alcohol, decreasing positive and increasing negative expectancies. These shifts in expectancies have been shown to predict lower levels of alcohol use.

**Bringing in the Bystander Intervention Training (BIBI)** - focuses on increased abilities of bystanders to safely intervene in instances where an incident of sexual assault may be occurring or instances where there may be risk. This program was developed and evaluated by leading researchers and program practitioners and is customizable to reflect the locations, colloquialisms and culture of our campus. This key attribute allows for the EBP to run in tandem with the Department of Health & Human Services CLAS guidance which addresses the need for the integration of cultural factors within effective programming. By design the Evidenced Based Program will be structured as a comprehensive two session training totaling 4.5 hours.

**Be the Sober One** - Programming designed to teach students how to: Use good judgement; Keep a close eye on friends, Know the times to tell your friends “chill out”, “time to go” or “You’re tripping!” Make sure everyone stays together especially when going home. And have fun being the sober one!

**Secrets and Stilettos Training** - Secrets and Stilettos has been in operations since 2012 under the leadership of Georgia Legal Services. Over its three (3) year course of existence, this program has impacted over 1,000 individuals, predominantly women, engaging them in educational seminars in regards to such issues as domestic violence, human trafficking as well as workshops targeting males in an effort to identify psychological and behavioral factors that perpetuate and/or standardize sexual assault. Originally designed as a program to spread the awareness of domestic violence amongst professional working women through the sharing of knowledge and personal stories in hopes that more women will feel comfortable enough to come forward if they were being abused as well as to provide women with information and awareness to prevent their becoming victims, recent research has evidenced a need to include more bystander intervention training.
**1 in 4 and Beyond** - This unique program has the dual benefit of educating men on how to help women recover from a rape experience while lowering men's rape myth acceptance and their self-reported likelihood of raping.

**Sex Signals Workshop** - Through improvisation and audience interaction, the play ‘Sex Signals’ explores how social pressures, gender stereotypes, unrealistic fantasies, and false preconceptions all contribute to the tensions often found in dating. Accompanied by a semi-improvisational scene, the presenters demonstrate how these and other factors can lead to sexual assault. The utilized scene enables audiences to recognize the true nature of rape, and to place full responsibility with the rapist. ‘Sex Signals’ challenges audiences who have mislabeled coercive behavior as seduction, and to reexamine a culture that too often holds victims of rape responsible for their own vulnerability.

**Training for Intervention Program (TIPS)** - allows for participants to become trained on how to take roles in efforts to prevent intoxication and alcohol misuse on college campuses thus preventing such incidents as rape and assault.

**Dorm Room Chats (Workshops)** - Sexual Assault and Dating Violence as lead by administrators, peer educators and community partners. It is important to note that all of the aforementioned components of the proposed continuum of care incorporate elements of bystander intervention and training.

Note: All pre-referenced workshops and trainings are availed to FVSU students regardless of classification. ALC however is offered to students who are referred through Judicial in tandem with their Substance Abuse Group Sessions along with Prime for Life which is facilitated by a contracted community based partner (CBO) in support of TEARs2C (Teaching Everyone About the Risks-Community Coalition) a Department of Health and Human Services funded initiative. Other programs are supported by such agencies as the Georgia Department of Public Health and Governor’s Office of Highway Safety.

CRIME STATS 2012 TO 2014
Note: Crimes reported in the residential facilities are also included in the on campus category. Fort Valley State University began tracking crimes between the campus and housing separately on the annual report in 2013. Hate crime statistics include those from manslaughter, forcible and non-forcible sex offenses, robbery, aggravated assault, burglary, motor vehicle theft, arson, larceny, vandalism, simple assaults, intimidation and damage/vandalism of property. Non-forcible sex offenses based on the Clery Act for reporting purposes should only include incest and statutory rape.

It was discovered that after a professional review of the 2013 FVSU—ASR, the Warner Robins Center was not a completely separate branch complete with its own separate set of administrators, so therefore any Clery reportable crimes will be contained with the overall statistical data for the University referenced above and will not be separated.

Annual Student Housing Fire Safety Report in Accordance with the Higher Education Opportunity Act

Fort Valley State University’s fire safety policy and rules are intended to prevent fires and fire-related injuries and/or deaths from occurring or affecting the FVSU community and facilities.
All FVSU buildings are inspected annually, and residential rooms are inspected periodically, at random times during the year, to ensure compliance with state fire codes. Because of the seriousness of the consequences that could result from failure to comply with codes and FVSU’s fire safety rules, FVSU takes disciplinary action on the first offense. This may include the imposition of a fine by the Housing Department. The Institution also has the right to require students who violate safety rules to vacate their accommodations — without financial credit for the remainder of the semester. The FVSU Department of Campus Police and Safety maintains reports of all Fires and/or Fire Drills and Prevention efforts for the University. The Department’s Admin Secretary and Records Clerks annually review the same records computer database as well as actual reports as crime reporting in order to record that statistical data in compliance with Clery rules and within the ASR. Because Campus Police investigates fires as well as criminal activity all fire calls are documented on the same daily activity log as crime.

Fire Safety Standards

Prohibited Behaviors in FVSU Residential Facilities

- Misusing or tampering with fire-safety equipment. This includes, but is not limited to, fire extinguishers, hoses, horns, bells, conduit sections, alarm-pull trigger devices, fire sprinklers, central-relay control bases, and glass covers for fire extinguishers, as well as pulling false alarms.
- Obstructing hallways, sidewalks, or stairwells that might impede evacuation from a building during an emergency.
- Propping open interior fire doors in common areas, stairwells, and hallways. Those are in place for added fire protection to slow the spread of fire.
- Storing bicycles in stairwells or any other location that might impede evacuation from a building during an emergency.
• Possessing chemicals or substances that are potentially dangerous or highly flammable. This includes, but is not limited, to gasoline, propane, lighter fluid, torches, etc.
• Leaving food cooking unattended.
• Failing to vacate the building when the fire alarm system is activated.

Open Flames

• Candles, incense burners, and other open flame devices are strictly prohibited.
• Using items that are potentially dangerous and/or flammable, including fireworks, hazardous materials, etc., is also prohibited.

Smoking

• Smoking is prohibited in all residence hall areas (rooms, apartments, suites, common areas, lobbies, lounges, stairwells, elevators, activity/recreation rooms, bathrooms, etc.).
• Smoking is also banned on all University property and buildings at every University System of Georgia Institutions.

Fire Safety Inspections

The FVSU Fire Safety Office located within the Department of Campus Police and Safety conducts yearly fire inspections in the residence halls within the first month of each semester, checking rooms for fire or unusual safety hazards and to ensure compliance with the following:

• No halogen-touchier lights. The intense heat generated by these bulbs creates a fire hazard and a potential source of burns. These bulbs start fires if they come in contact with curtains, clothes, paper, and other flammables. In addition, the lamps are unstable and can be easily tipped over.
• No overloaded electrical circuits. There can be only one major appliance (such as a refrigerator, TV, computer, microwave, etc.) per receptacle plug.
• No hanging of items from overhead lights, sprinkler heads, or pipes. No attachments to the ceiling.
• Immediate and proper disposal of appliances with old or damaged cords.
• Use of electrical appliances that meet the Underwriter’s Laboratory (UL) or Electrical Testing Labs (ETL) safety standards.
• No removal of grounding pins from three-pronged electrical cords.
• No unattended operating of coffee makers and other appliances with exposed heating elements. They must be unplugged after each use and stored appropriately.
• No running of cords under carpet. Avoid stapling or tacking electrical wires to fixtures (on walls, over doorways, on ceilings, etc.).
• No open-element hot plates.

Regular Mandatory Supervised Fire Drills

Fort Valley State University’s Residential Life Department, in conjunction with the FVSU Fire Safety Office and the FVSU Police Department, conducts emergency evacuation drills each year. These drills are conducted within 10 days of the beginning of classes each semester. During this past year there were a total of 62 fire drills conducted University wide. During fire evacuation drills, each fire alarm system in each on-campus student housing facility is activated. Once the alarm has been activated, students and visitors must exit immediately and gather at the designated evacuation safe refuge location. A sweep of all floors and a head count is conducted by a Residential Life representative and FVSU police officer. Only when the alarm is silenced and the FVSU police officer or local authority gives the “all clear,” will re entry into the building be permitted. Students who do not vacate the building when a fire alarm is activated may be subject to judicial action. Residential Life RLC’s and RA’s receive classroom and hand-on
training in the following areas: Fire extinguisher use, Evacuation and emergency preparedness, Kitchen fire safety, Life safety systems, FVSU Fire Safety Rules and Fire Inspection program

Note: For these drills only, the fire alarm system is reset by the Fort Valley State University Fire Safety Office.

Fire Protection Systems

Fire Alarm Systems/Initiation and Pull Stations

Fire alarm pull stations are generally located at exit doors, stairways, and at elevators in FVSU residential facilities. Once the alarm is activated, the Fort Valley State University Police Communications Center automatically receives the signal and responds by contacting FVSU Police and the Fort Valley Fire Department.

Smoke Detection

Smoke detectors are located throughout each floor of every residential facility on campus. If smoke is detected, the fire alarm system will automatically send a signal to the central station monitor.

Sprinkler System

Sprinkler heads must not be tampered with or used as a means to hang personal items. This could cause malfunctioning of the system or substantial water damage if one of the heads accidentally discharges. These sprinklers disperse 25 to 40 gallons per minute. The rise of temperature associated with fire in an area will activate the sprinkler system and send an alarm signal to the central station monitor. Currently, 90 percent of FVSU housing beds are covered by sprinkler protection. Future renovation project plans will accomplish 100 percent
sprinkler coverage. Future renovations or demolition are projected for Josie Hall which was built in the 1970’s which will increase the percentage to 100.

Fort Valley State University is not responsible for any loss a student may incur as a result of tampering with sprinkler heads. A resident who knowingly or accidentally causes a sprinkler to activate may be charged for the repairs/cleanup and may be subject to judicial proceedings.

Note: It is against federal and state laws to tamper with or interfere with life and safety equipment. Destroying fire exit signs, fire alarm boxes, and other safety items could lead to disciplinary action, and the resident may be charged for the repairs/cleanup.

**Evacuation Plans**

**General Procedures**

If smoke or a fire is discovered, the fire alarm must be activated immediately. Exit through the nearest door or stairway and proceed to the designated safe refuge area. If the nearest exit or exit stairwell is obstructed by smoke, fire, or other hazards, proceed to an alternate exit or exit stair-well. Do not use elevators. Once assembled outside at the Emergency Evacuation Assembly Point, Residential Life RLC’s and RAs will account for all occupants and communicate with first responders if anyone is not accounted for and provide other information vital to safety and rescue. Building occupants shall not reenter the building until the Authority Having Jurisdiction gives the “all clear.”

**Reporting Fires**

To report a fire, students, employees, or visitors should call 911 or the Fort Valley State University Police Communications Center at (478) 825-6500 from any campus landline. Alternatively, callers can dial (478) 825-6304 from a cellphone. Either option will ensure the
quickest response and will also ensure that other Fort Valley State University personnel, as appropriate, are notified.

Additional protection is provided by University Campus Police Officers who are trained for initial response to fire incidents occurring at University facilities. Officers provide assistance in building evacuation and extinguishment/containment of small fires.

A Special Response Mobile Unit is available to Campus Police Officers at the University for response to emergencies. The mobile unit provides equipment and protective equipment for Officers to extinguish and control small fires involving ground cover, outdoor trash receptacles and other non-structural type fires.

In addition, laboratory safety and evacuation plans are also part of the Environmental Health and Safety mission. EHS is dedicated to maintaining the safety of our community by conducting annual inspections, plan reviews, and evacuation drills are in all laboratories on campus.

Fire Safety Education and Training Programs for Students, Faculty and Staff

The University’s Fire Safety Officer in collaboration with Environmental Health and Safety (EHS), in coordination with Residence Life and Housing and Food Service, provides annual training to Resident Assistants (RA) and Residence Life Coordinators.

Topics addressed during this training include:
- Fire prevention in the residence hall
- What to do in the event of a fire
- How to report a fire or other emergency
- How residence hall fire safety systems operate
- Resident Assistants and Residential Life Coordinators coordinate additional fire safety training and education programs for residence hall students, especially during and after fire drills.

CRIME PREVENTION TIPS

Robbery

Robbery is the attempt to obtain money, personal belongings (i.e. smartphones, tablets) or property by the use of force or the threat of force. Because of the potential for personal injury during a robbery, do not try to be a hero. Hand over your property quickly and quietly. If possible, observe the criminal and make mental notes of the number of thieves present as well as their appearance, clothing, voice, nicknames used, personal items, identifying marks, peculiarities and weapons. Call the police immediately upon reaching a place of safety. These precautions can help you reduce your chances of becoming a robbery victim:

- Walk confidently with your head up, and do not let your mind wander
- Pay attention to those passing you and behind you
- Do not take short cuts through unlit, sparsely travelled paths, tunnels or alleys
- Do not wear a lot of flashy jewelry and carry as little cash as possible
- Know that weapons are not allowed on campus, but if you carry a weapon off campus, there is a possibility it could be used against you
- Park in well-lighted, well travelled lots

THEFTs FROM VEHICLEs

You can prevent many car break-ins by thinking ahead and following these suggestions:

- Always remove the keys from your vehicle, lock all doors and roll up all windows, even if your stop is brief
- Secure or remove all valuables from view, including items such as handbags, cell phones, loose change, clothing, textbooks, book- bags, CDs, or even umbrellas
- Never leave personal identification documents or credit cards in your vehicle
- Park only in areas that are well-lit, or in attended parking lots or garages; parking in secluded or dimly lit areas makes your car an easy target

Bomb Threats
A bomb threat is a federal offense that carries serious penalties. FVSU is committed to identifying and prosecuting any individual calling in a bomb threat. Bomb threats are usually received by telephone. If you receive such a call, ask the following questions:

- When is the bomb going to explode?
- Did you place the bomb?
- Where is the bomb located?
- What does it look like?
- What is your address?
- What kind of bomb is it?
- What is your name?
- What will cause it to explode?

In addition, note the exact time of the call and write down exactly what the caller said. Try to describe the caller’s voice and listen for any background noise. Then notify the FVSU Police immediately by calling 478-825-6211.

**AVOIDING WORKPLACE VIOLENCE**

The university is committed to creating and maintaining a working, learning and social environment that is free from violence. Acts or threats of physical violence, including verbal abuse, harassment, terrorism, hate, prejudice, stalking, intimidation and/or coercion that involve or affect the Fort Valley State community will not be tolerated. Threats or acts of violence include conduct against persons or property that are severe, offensive, and create a hostile, abusive or intimidating work environment.

If you have experienced an incident that is affecting your study or work environment and are feeling overwhelmed and stressed, we encourage you to speak to your supervisor or the dean of your college immediately. You may also seek counseling and relief by contacting the Counseling Center or the FVSU Police.

**If someone is using abusive language or threatening you:**
Try to back away from the individual
Talk calmly
Use open body language
Don’t get upset or take it personally; afterwards, you should document the threat and report the threat to management or your dean

While the Fort Valley State University campus is a reasonably safe environment, crimes do occur. In addition to the Clery Act crimes statistics below, other common crimes that occur on campus are outlined below:

Theft

Theft is a common occurrence on college campuses. Oftentimes this is due to the fact theft is a crime of opportunity. Confined living arrangements, recreation facilities, and many open classrooms and laboratories provide thieves with effortless opportunities. Occupants of the residence halls often feel a sense of security and home atmosphere and become too trusting of their peers, while others leave classrooms and laboratories unlocked when not occupied for short periods of time.

It is important to be very vigilant when it comes to suspicious persons. Never leave items and valuables lying around unsecured. Doors should be locked at all times. The following is a list of suggestions to help you not fall victim of theft:

- Keep doors to residence halls, labs, classrooms locked when not occupied
- Don’t provide access to unauthorized persons in the buildings or classrooms
- Do not keep large amounts of money with you.
- Lock all valuables, money, jewelry, checkbooks in a lock box or locked drawer
- Keep a list of all valuable possessions including the makes, models, and serial numbers
- Take advantage of the Engraving Programs to have all valuables engraved with specific identifying marks
- Don’t leave laptop computers or textbooks unattended in labs or libraries, even if it is for a short period of time
▪ Don’t lend credit cards or identification cards to anyone

▪ Report loitering persons or suspicious persons to police immediately; don’t take any chances

Identity Theft

Identity theft is a crime in which someone wrongfully obtains and uses another person’s personal information in some ways that involve fraud or deception, typically for economic gain. This personal data could be a Social Security number, bank account or credit card information.

Persons involved in identity theft often use computers or other forms of media to assist them.

There are measures you can take to prevent this from happening to you:

▪ Do not give anyone your personal information unless there is a reason to trust them and the release is for good reason.

▪ Never give your credit card information, date of birth, or other information over the telephone, unless you can confirm the person receiving that information.

▪ Complete a credit check frequently to assure there is no suspicious activity.

▪ Examine financial information often to assure all transactions are authorized and accounted for.

▪ Use of computer security software on computers and installation of firewalls are good.
