

FUNDING ANNOUNCEMENTS

Arts, Sciences and Humanities and International Grants

Program: German Chancellor Fellowship Program for Prospective Leaders

Agency: Alexander von Humboldt Foundation

Next Deadline: Sep 15, 2014

Up to 10 fellowships are made per year to prospective leaders from Brazil, China, India, Russia and the U.S. to conduct a project as guests of the partner of their choice in Germany. Fellows will be recruited from a broad range of areas such as politics and public policy, law, media, business and the arts. Program provides a stay of one year in Germany where fellows are mentored by hosts, whom they have identified on the basis of their expertise. Projects should have a long-term and visible impact and help to advance fellows' careers and professional development. Annual deadline: 9/15.

See <http://tinyurl.com/azbjxq> for details.

Program: Residential Fellowship: Berlin Prize

Agency: American Academy in Berlin

Next Deadline: Sep 29, 2014

Supports emerging as well as established scholars, writers and professionals wishing to engage in independent study in Berlin. Around 24 Berlin Prizes are conferred annually. Prizes have been awarded to scholars working in various disciplines, including history, political science, literature, economics, art history, musicology, anthropology, law and linguistics. A stipend up to \$5,000 per month is available. Only U.S.candidates are eligible to apply. Applicants must have a Ph.D. or equivalent by the time of application.

See <http://www.americanacademy.de/home/fellows/applications/>for details.

Program: ACLS Collaborative Research Fellowships

Agency: American Council of Learned Societies

Next Deadline: Sep 24, 2014

Supports collaborative research in the humanities and related social sciences. The aim of this fellowship program is to offer small teams of two or more scholars the opportunity to collaborate intensively on a single, substantive project. The fellowship supports projects that aim to produce a tangible research product (such as joint print or web publications) for which two or more collaborators will take credit. Awards are up to \$140,000 for a single project.

212/697-1505

Program: ACLS Fellowships

Agency: American Council of Learned Societies

Next Deadline: Sep 24, 2014

Supports research in disciplines of the humanities and humanities-related social sciences. Appropriate fields of specialization include: anthropology, archaeology, art history, economics, geography, history, languages and literatures, law, linguistics, musicology, philosophy, political science, psychology, religion, and sociology. Stipends are set at three levels based on academic rank: up to \$35,000 for assistant professor and career equivalent; up to \$45,000 for associate professor; and up to \$65,000 for full professor. Must be a U.S. citizen or permanent resident by application deadline.

212/697-1505

Program: ACLS/New York Public Library Fellowships

Agency: American Council of Learned Societies

Next Deadline: Sep 24, 2014

Offers five residential fellowships for up to 12 months of research by experienced scholars with a Ph.D. or equivalent to utilize resources at the Library's Cullman Center for Scholars and Writers. Fellowships are intended to enhance a scholar's research in the humanities or humanities-related social sciences by facilitating access to the Library's various collections. Stipends are up to \$65,000; in some cases housing allowances will be given. Applicants for the ACLS/NYPL residential fellowships must also apply to the Cullman Center for Scholars and Writers at the NYPL.

Program: Digital Innovation Fellowships

Agency: American Council of Learned Societies

Next Deadline: Sep 24, 2014

Supports an academic year dedicated to work on a major scholarly project that takes a digital form. Projects might include but are not limited to digital research archives, new media representations of extant data, innovative databases, and digital tools that further humanistic research. Five fellowships will be awarded with each fellowship carrying a stipend of up to \$60,000 toward an academic year's leave and provides for project costs of up to \$25,000. Eligibility is open to scholars in all fields of the humanities and the humanistic social sciences.

Program: Curatorial Grant Program

Agency: Andy Warhol Foundation for the Visual Arts

Next Deadline: Sep 01, 2014

Supports curatorial programs at museums, artists' organizations and other cultural organizations that originate innovative and scholarly presentations of contemporary visual art. Projects may include exhibitions, catalogs, education, audience development, and other related activities. Also supports creation of work through artist in residence programs, the work of choreographers and performing artists when the visual arts are an element of a production, and equitable access to resources. Awards range from \$10,000-\$200,000.

Annual deadlines: 3/1, 9/1.

Program: Enduring Questions

Agency: National Endowment for the Humanities

Next Deadline: Sep 11, 2014

Provides support for new humanities courses at the undergraduate level. May be taught by faculty from any field in the humanities or outside the humanities, provided that humanities sources are central to course content. Courses must reflect intellectual pluralism; draw on readings from different periods. Award of up to \$38,000 depending on number of project directors. The new course must be taught at least twice (requires administrator sign-off).

Program: Summer Stipends

Agency: National Endowment for the Humanities

Next Deadline: Sep 30, 2014

Provides \$6,000 for two consecutive months (normally, but not always, in the summer) of full-time, advanced research and writing that contributes to scholarly knowledge or to the public's understanding of the humanities. Awards usually result in publications. All scholars, including university faculty and staff, are eligible. Limited submission: campuses may nominate a maximum of two faculty members at any level per competition. Recipients of fellowships of over \$15,000 in the past three academic years are not eligible.

See <http://www.neh.gov/grants/guidelines/stipends.html> for details.

Science, Technology, Engineering, and Mathematics

Program: Research Associateship Programs

Agency: National Research Council

Next Deadline: Aug 01, 2014

Supports basic and applied research by graduate students, recent Ph.D.s and senior researchers at federal laboratories and research facilities. Stipends support research in chemistry; earth and atmospheric sciences; engineering and applied sciences; biological, health, and behavioral sciences; neuroscience; biotechnology; math; space and planetary sciences; and physics.

Annual deadlines: 2/1, 5/1, 8/1, 11/1.

Not all laboratories participate in all four rounds.

See <http://sites.nationalacademies.org/PGA/RAP/> for details.

Program: Advances in Biological Informatics (ABI)

Agency: National Science Foundation

Next Deadline: Aug 12, 2014

Supports new approaches to the analysis and dissemination of biological knowledge for the benefit of both the scientific community and the broader public. Especially interested in the development of informatics tools and resources that have the potential to advance, or transform, research in biology supported by BIO.

Annual deadline: second Tuesday in August.

See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5444 for details.

Program: Biological Anthropology

Agency: National Science Foundation

Next Deadline: Aug 01, 2014 (target date)

Supports basic research in areas related to human evolution and contemporary human biological variation. Supported research areas include human genetic variation, human adaptation, human osteology and bone biology, human and nonhuman primate paleontology, functional anatomy, and primate socioecology.

Regular research (Senior) proposals are due 4/4/14; 8/1/14; 12/5/14. Dissertation proposals are due 4/3/15; 8/1/14; 12/5/14.

See <http://www.nsf.gov/pubs/2012/nsf12115/nsf12115.jsp> for details.

Program: Opportunities for Promoting Understanding through Synthesis (OPUS)

Agency: National Science Foundation

Next Deadline: Aug 01, 2014

Within the Ecological Biology, Ecosystem Science, and Population and Evolutionary Processes clusters, supports proposals aimed at synthesizing a body of related research projects conducted by an individual or, in cases where multiple scientists already have worked collaboratively, groups of investigators over an extended period. Usually supports mid-to late-career investigators, but also supports early-career projects that will produce unique, integrated insight.

Annual deadline: 8/1.

See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=13403 for details.

Program: Research Experiences for Undergraduates (REU)

Agency: National Science Foundation

Next Deadline: Aug 27, 2014

Supports undergraduate research participation areas funded by NSF through two mechanisms. REU Sites support independent projects to initiate and conduct research projects involving a number of undergraduates. REU Supplements support the addition of undergraduates to ongoing, new, or renewal NSF-funded projects (deadlines vary). Approximately 180 new Site awards and 1,600 new Supplement awards are granted yearly.

Annual deadlines: projects requiring access to Antarctica are due fourth Friday in May, for all other sites, fourth Wednesday in August.

Email: reu.coord@nsf.gov.

Program: Scholarships in Science, Technology, Engineering, and Math (S-STEM)

Agency: National Science Foundation

Next Deadline: Aug 12, 2014

Provides scholarships for academically talented, financially needy students, enabling them to enter the high technology workforce following completion of an associate, bachelor, or graduate degree in computer science, technology, engineering, engineering technology, or math.

Institutions support scholarship activities and select scholarship recipients. Annual deadline: second Tuesday in August. Limited submission: one application per school or college. See

Program: Historically Black Colleges & University Undergraduate Program (HBCU-UP)

Agency: National Science Foundation

Next Deadline: Aug 25, 2014

Enhances quality of undergraduate STEM education and research at HBCU campuses to broaden participation in STEM. LOIs required by 11/24/14 for Targeted Infusion Projects, Broadening Participation Research Projects, Implementation Projects, and Achieving Competitive Excellence (ACE) Implementation Projects, and by 8/25/14 for Research Initiation Awards. Limited submission: two Broadening Participation Research, Targeted Infusion Projects or Research Initiation Awards per institution.

Program: Decision Frameworks for Multi-Hazard Resilient and Sustainable Buildings

Agency: National Science Foundation

Next Deadline: Jul 24, 2014

Seeking to advance knowledge for new concepts for multi-hazard resilient/sustainable soil-foundation-structural-envelope (SFSE) building systems using decision frameworks for selection among alternative building system designs. Multidisciplinary collaborations are essential. Proposals must integrate across the fields of architecture; engineering; material, environmental, social, behavioral, and economic sciences; etc. Research supported under this solicitation may include computational, analytical, experimental work.

Program: Solar, Heliospheric, and INterplanetary Environment (SHINE)

Agency: National Science Foundation

Next Deadline: Aug 20, 2014

Supports research directly related to topics under discussion at community workshops organized by SHINE. Goal is to promote enhanced understanding of and predictive capabilities of the processes by which energy in the form of magnetic fields and particles are produced by the Sun and/or accelerated in interplanetary space and on the mechanisms by which these fields and particles are transported to the Earth through the inner heliosphere. Annual deadline: Proposals are due third Wednesday in August.

Program: EarthScope

Agency: National Science Foundation

Next Deadline: Aug 25, 2014

Supports single or collaborative proposals to conduct research associated with the EarthScope facility. EarthScope is a science program to explore the 4-dimensional structure of the North American continent. The program provides a framework for broad, integrated studies across the Earth sciences and offers a centralized forum for Earth science education at all levels and an excellent opportunity to develop cyberinfrastructure to integrate, distribute, and analyze diverse data sets.

Annual deadline: 8/23.

703/292-4693

Program: Biological Oceanography

Agency: National Science Foundation

Next Deadline: Aug 15, 2014 (target date)

Supports research in marine ecology broadly defined as the relationships among aquatic organisms and their interactions with the environments of the oceans or Great Lakes. Projects submitted to the program for consideration are often interdisciplinary efforts that may include participation by other Ocean Sciences Division programs.

Annual deadlines: target dates are 2/15 and 8/15.

See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=11696 for details.

Program: Chemical Oceanography

Agency: National Science Foundation

Next Deadline: Aug 15, 2014 (target date)

Supports research into the chemical components, reaction mechanisms, and geochemical pathways within the ocean and at its interfaces with solid earth and the atmosphere. Major emphases include studies of material inputs to and outputs from marine waters; orthochemical and biological production and transformation of chemical compounds and phases within the marine system; and determination of reaction rates and study of equilibria.

Annual deadlines: target dates are 2/15 and 8/15.

See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=11698 for details.

Program: Marine Geology and Geophysics

Agency: National Science Foundation

Next Deadline: Aug 15, 2014 (target date)

Supports research on all aspects of geology and geophysics of the ocean basins and margins, and the Great Lakes, including structure, tectonic evolution, and volcanic activity of the ocean

basins, the continental margins, the mid-ocean ridges, and island arc systems; processes controlling exchange of heat and chemical species between seawater and ocean rocks; marine sediments; past ocean circulation patterns and climates; and interactions of continental and marine geologic processes.

Annual deadlines: target dates are 2/15 and 8/15.

Program: International Research Experiences for Students (IRES)

Agency: National Science Foundation

Next Deadline: Aug 19, 2014

Supports development of globally-engaged U.S. STEM students capable of performing in an international research environment. Supports active research participation by students enrolled as undergrad or grad students in any of the areas of research funded by NSF. Program also includes Doctoral Dissertation Enhancement Projects which support dissertation research abroad by a single doctoral student in collaboration with a foreign investigator. Annual deadline: third Tuesday in August.

Program: Science, Technology, and Society (STS)

Agency: National Science Foundation

Next Deadline: Aug 01, 2014

Supports scientific research that examines relationships between science (including engineering), technology, and society. STS researchers use diverse methods including social science, historical, and philosophical methods. Effective STS proposals go beyond describing the interaction between science, technology and society to explain how proposed research provides new and important scientific insights into the theory or practice of science (or engineering) or into the adoption, use, or diffusion of technology.

Annual deadlines: 8/1.

Program: Cognitive Neuroscience

Agency: National Science Foundation

Next Deadline: Aug 27, 2014 (target date)

Supports highly innovative, interdisciplinary projects aimed at advancing rigorous understanding of how the human brain supports thought, perception, affect, action, social processes, and other aspects of cognition and behavior, including how such processes develop and change in the brain and through evolutionary time. Emphasis is on integration of cognitive sciences, basic sciences, and engineering for insights into healthy functions of brain, cognition, and behavior.

Annual deadlines: 2/25 and 8/27.

703/292-7281

Program: Cultural Anthropology

Agency: National Science Foundation

Next Deadline: Aug 15, 2014

Supports basic scientific research about the causes, consequences, and complexities of human social and cultural variability. Annual target dates for Senior Research by Ph.D. investigators, Doctoral Dissertation Research Improvement, High-Risk Research in Anthropology, and training and workshops are 1/15 and 8/15.

Annual deadlines: target dates for Cultural Anthropology Scholar awards for research-related, postdoctoral training are 1/16 and 8/16; REG and REU supplement proposals due 3/1. EAGER, RAPID, and small workshop proposals accepted anytime.

Program: Decision, Risk, and Management Sciences (DRMS)

Agency: National Science Foundation

Next Deadline: Aug 18, 2014 (target date)

Supports research projects, dissertation research, workshops, and small grants for time-sensitive and high-risk projects to increase understanding and effectiveness of decision making by individuals, groups, organizations, and society. Topics of interest include judgment and decision making; decision analysis and aids; risk analysis, perception, and communication; societal and public policy decision making; and management science and organizational design. Annual deadlines: target dates are 1/18 and 8/18.

Program: Cottrell College Science and Cottrell Scholar Awards

Agency: Research Corporation for Science Advancement

Next Deadline: Aug 15, 2014

Single-investigator Cottrell College Science Awards (pre-proposal deadline 5/15/14) provides \$35,000 (\$10,000 match required) for tenure-track individual investigators in their first three years of positions in astronomy, chemistry, or physics departments that do not offer doctoral degrees. Cottrell Scholar Awards (8/15/14) provide \$75,000 to tenure-track assistant professors in bachelor- and Ph.D.-granting departments of astronomy, chemistry, and physics. Multi-investigator awards available for past awardees.

See <http://www.rescorp.org/grants-and-awards/cottrell-college-science-awards> for details.

Program: Awards to Stimulate and Support Undergrad Research Experiences (ASSURE)

Agency: U.S. Department of Defense

Next Deadline: Aug 27, 2014

Supports undergrad research in DOD-relevant disciplines and is designed to increase the number of high-quality undergrad science and engineering majors who ultimately decide to pursue advanced degrees. DOD executes the ASSURE program collaboratively with NSF through its Research Experiences for Undergraduates (REU) Sites Program. REU Site proposals requiring access to Antarctica due (5/23); all other site proposals due (8/27). Proposals submitted to NSF will be also be considered for possible DOD support.

Program EPA's STAR Program

The U.S. Environmental Protection Agency (EPA), recently released Air Pollution Monitoring for Communities <<http://www.epa.gov/ncer/rfa/2014/2014-star-air-pollution-monitoring.html>> as part of its Science to Achieve Results (STAR) program. Specifically of interest is research on using low-cost portable sensors to understand and avoid air pollution exposure, on the ways communities and individuals interact with air pollution sensors and their data, on methods for understanding and managing the quality of data from air pollution sensors, and on how sensors and sensor networks compare to existing state-of-the-art air quality monitoring methods. This program is also part of the Air, Climate and Energy (ACE) Strategic Research Action Plan <<http://www2.epa.gov/aboutepa/about-air-climate-and-energy-research-program>>, which provides transdisciplinary research that addresses complex air quality issues.

The application deadline is October 7, 2014.

Past STAR grant recipients and proposal abstracts are located here <<http://cfpub.epa.gov/ncer/abstracts/index.cfm/fuseaction/recipients.welcome/displayOption/year>>.
